

SHUAIB IQBAL

AI Engineer · LLM & Agentic AI · RAG Systems · Backend Developer

Lahore, Pakistan · +92 301 7184603 · shuaibiqbaldgk@gmail.com · [LinkedIn](#) · [GitHub](#) · [Portfolio](#)

PROFESSIONAL SUMMARY

AI Engineer with 4+ years of production experience designing and shipping LLM-powered applications, RAG systems, and agentic AI pipelines for real-world clients across FMCG, IoT, and SaaS. Proficient with OpenAI API, Anthropic Claude, LangChain, LangGraph, and CrewAI — from prompt engineering and retrieval pipelines through to FastAPI/Django backends deployed with Docker. Experienced in multi-agent co-agent frameworks, vector databases, and building AI-first products end-to-end. Comfortable owning full project delivery — collaborating with product and engineering teams to take features from idea to production.

TECHNICAL SKILLS

LLM & Generative AI: OpenAI API · Anthropic Claude API · HuggingFace Transformers · Ollama · LLaMA 3

Agentic AI: LangGraph · CrewAI · Multi-Agent Systems · Co-Agent Frameworks · Autonomous Agents · Tool Integration

LangChain: LCEL · Chains · Runnable · Agents · Memory · Output Parsers · Document Loaders · Text Splitters · Vector Stores

RAG & Vector DBs: RAG Pipelines · FAISS · Pinecone · ChromaDB · Embeddings · Semantic Search

Prompt Engineering: Prompt Design · Structured Output · Fine-tuning

ML / DL: Scikit-learn · TensorFlow · PyTorch · Keras · XGBoost · LSTM · CNN · ARIMA · Prophet · Time-Series Forecasting · Anomaly Detection

Backend & APIs: FastAPI · Django · Django REST Framework · RESTful API Design · PostgreSQL · SQLAlchemy · ETL Pipelines

DevOps & Tools: Docker · Git · Linux · Streamlit · Plotly · Jupyter · VS Code · Cursor AI · Claude AI

WORK EXPERIENCE

Machine Learning Engineer *Oct 2022 – Present*

AiSight.ai · Lahore

- ▶ Built an LLM-powered natural-language SQL generation tool (OpenAI API + LangChain) enabling plain-English querying over a 14M-row FMCG sales dataset — eliminated manual reporting cycles entirely.
- ▶ Developed a bespoke AI-first Sales Intelligence Chat platform (OpenAI API + LangChain Agents + Streamlit) with full multi-turn session memory, live sortable tables, and follow-up chaining for real-time FMCG insights.
- ▶ Delivered Revenue Growth Management (RGM) AI pipelines for EBM, PMI, RB-PK, and Unilever — predictive selling models, route optimization, and White Space Identification algorithms driving double-digit commercial growth.
- ▶ Reduced out-of-stock events by 20% through time-windowed stockout forecasting models and automated alerting systems.
- ▶ Built multi-system integrations — REST APIs (FastAPI / Django) exposing ML insights to SaaS clients; designed ETL pipelines (Python, SQL) unifying POS and census data across millions of records.
- ▶ Owned delivery timelines across multiple concurrent projects — collaborated with product and engineering teams to ship scalable, production-grade features; all workflows containerized with Docker.

Associate Machine Learning Engineer *May 2022 – Oct 2022*

Sense Digital · Islamabad

- ▶ Improved HVAC forecasting accuracy by 25% using ARIMA, LSTM, and XGBoost; built real-time anomaly detection systems for IoT energy wastage reduction.
- ▶ Designed time-series databases and backend services for sensor data; built Streamlit / Plotly dashboards and automated REST API reporting pipelines.

ML Engineer — Internship *Feb 2022 – Apr 2022*

IVY Interactive · Islamabad

- ▶ Delivered sales forecasting models (Prophet, LSTM, XGBoost) with RFM customer segmentation; evaluated with MAE, RMSE, R^2 . Built interactive dashboards and backend reporting scripts.

PROJECTS

Sales Intelligence Chat — Ask Your Data Anything [LangChain](#) · [OpenAI API](#) · [GPT-4](#) · [Streamlit](#)

LangChain agent querying a 14M-row FMCG dataset in plain English — full multi-turn session memory, follow-up chaining, and live sortable table rendering. [Github](#)

Portfolio AI Assistant — RAG System [LangChain](#) · [FAISS](#) · [OpenAI API](#) · [FastAPI](#) · [Render](#)

End-to-end RAG pipeline — Document Loaders, Text Splitters, FAISS vector store, OpenAI Embeddings, context-grounded Q&A via FastAPI. Deployed live on Render. [Github](#)

AI-Powered Document Q&A Bot [LangChain](#) · [FAISS](#) · [OpenAI API](#) · [Streamlit](#)

Full RAG pipeline: upload any PDF, ask questions in plain English — document loading, chunking, FAISS vector indexing, retrieval-augmented generation. [Github](#)

Conversational AI Chatbot with Memory [LangChain](#) · [ConversationBufferMemory](#) · [Streamlit](#)

Stateful multi-turn chatbot with windowed memory and contextual recall — LCEL chain composition, windowed memory primitives. [Github](#)

E-Commerce AI Chatbot (Fully Offline) [LangChain](#) · [LLaMA 3](#) · [Ollama](#) · [Flask](#)

Fully offline AI chatbot for e-commerce — LLaMA 3 via Ollama, RAG-style contextual Q&A with zero cloud dependency. [Github](#)

AI-Powered Resume Assistant (Fully Offline) [LangChain](#) · [LLaMA 3](#) · [Ollama](#) · [Streamlit](#)

Privacy-first offline LLM assistant for resume generation and contextual rewriting — local models, prompt chaining, structured output design.

EDUCATION

MS Computer Engineering *2018 – 2021*

NUST — National University of Sciences & Technology, Islamabad

Thesis: Predicting Residential Energy Consumption via Encoder-Decoder CNN-LSTM

B.Sc. Computer Systems Engineering *2014 – 2018*

IUB — The Islamia University of Bahawalpur

Thesis: Pattern Formation of Swarm Robots

CERTIFICATIONS

- ▶ Python Basics & Programming for Everybody — University of Michigan (Coursera)
- ▶ Introduction to Python for Data Science — IBM (Coursera)
- ▶ Data Analysis with Pandas & Data Visualization with Plotly — IBM / Coursera
- ▶ LLMs with HuggingFace & ChatGPT for Data Science — DataCamp
- ▶ Introduction to AI & Prepare for AI Engineering — Microsoft Learn
- ▶ Microsoft Azure AI Fundamentals: Text · Speech · Vision · Language Understanding · ML · Knowledge Mining
- ▶ Docker for Beginners — Udemy Labs
